

**BABA QUARTZ** is a prominent manufacturer of Engineered Quartz Surfaces. Our organization takes pride in its accomplished strength to deliver premium quality goods to a huge clientele.

Our product is made of genuine quartz, which is one of the nature's hardest stone. It is the most versatile and practical building material being used for beautiful kitchen countertops, table tops, bathroom vanities, elegant floorings and wall claddings. Our product is non-porous, stain & scratch resistant, flexible, hygienic, eco friendly and also comes with a low maintenance cost.

The ultimate nature of the quartz surfaces is its uniformity in pattern, uniqueness in color and customized designs.

**BABA QUARTZ** strive to optimize our client's satisfaction level by providing our distinguished product range.

We assure our quality & consistency as we are the only company in the world of engineered quartz slabs in history, who have their own quarries and in-house processing facility.

### **CARE & MAINTENANCE**

Like all fine materials, Baba Quartz responds best when handled with due care and attention. Remember, it is always easier to wipe up a spill than it is to handle a dried on stain. Just wipe away any spilled food before it turns into a permanent stain.

Remember that detergents containing bleach and hard scouring granules may harm surfaces over time. Therefore, pay due attentionin your detergent selection by never using cleaning products that contain soft or hard scouring granules such as vim scouring power

or CIF Cream.

Products with pH close to neutral or with reduced pH effect(General cleaning products which may be commercially available on shelves) may be used at all times. However, prolonged contact with decalcifiers and products containing decalcifying agents as well as oil solvents and products containing oil solvents must be avoided.

Gently scrape away a plastic spatula any spills of paint, nail, enamel, chewing gum mustard and grease that become hard to remove when dried. Then cleanse the surface with water.

Quartz being one of the hardest minerals on earth, offers Baba Quartz an unparalleled strength and durability that prevent easy scratching and damage. Still, as with any surface, Baba Quartz can be permanently damaged by exposure to strong forces that undermine its physical properties. In order for your countertop to maintain its good looks for many years, always use a bread/chopping board and a table mat(trivet).
